-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of invention of claims 1-9 and new added claim 20 and are tentatively withdrawn claims 10-19 from consideration on the reply filed on 10/27/2006 is acknowledged. The traversal is on the ground(s) that: "Applicant does note, however, that the MPEP requires that no such election or restriction be required, when the application can be searched and examined without undue burden on the Examiner. Applicant believed that all claims 1-19 could have been so examined in this application. Applicant understands that, by advancing this restriction, the Examiner acknowledges that any prior art used to reject the elected claims will not be used to reject claims of other group in any ensuing divisional application, because any such rejection would be tantamount to an admission that the examination of those claims could have proceeded with the current claims, with no undue burden to the Examiner." This is not found persuasive because:

a) Examiner does not see where the "MPEP requires that no such election or restriction be required". The Election/Restrictions was made under MPEP 806.05(c) thus, argument without specifying where Applicant relies on for his argument (e.g. 806.05(c)) is irrelevant.

b) Applicant requested to have the new added claim 20 to be examined is not persuasive. The Election/Restrictions requirement was made under (806.05(c)), which is a combination and subcombination whereas the request for examination of claim 20 because Applicant believes claim 20 is generic to both sets of claims (Species?). The

Art Unit: 2858

request is not persuasive because Examiner does not make Election/Restriction under species.

The requirement is still deemed proper and is therefore made FINAL. Claims 10-20 are withdrawn further from consideration.

Allowable Subject Matter

2. Claims 1-9 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a test circuit for identification of locations with low speed performance having pairs of serially connected fourth switch and third inverter, each coupled between the first and second inverter of one of the units in a first column; and pairs of serially connected fifth switch and fourth inverter, each coupled between the second and first inverter respectively of a last and first unit in a same column, as recited in the independent claims 1 and 5 and in combination of the claims.

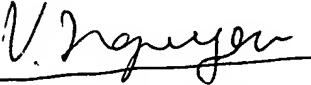

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
